Muhammad Gmal Ezzat

Frontend Engineer

Cairo , Egypt | muhammadgamal320@gmail.com | 01111034273 | LinkedIn | GitHub | Leetcode | Portfilio

Education

Computer and System engineering, El-minya University

2018 - 2023

Objective

I am Muhammad Gmal, I am excited to apply for the Frontend Developer position. I am eager to start my career in the industry and grow with a company that values innovation, creativity, and teamwork. I gained experience in frontend development by completing several projects using HTML, CSS, and JavaScript. Additionally, I have experience using React and Nextjs framework to develop responsive and user-friendly websites. I have also worked collaboratively with other developers to develop web applications that meet client requirements and user needs

Projects

Full Stack Food Delivery | React.js, Redux, Tailwind, FireBase,

Aug 2023

GitHub Link 12

• Features: This allows users to add new items, maintain everything over the Firestore cloud database, and make orders.
